1919

History Of St. Andrew's Church Grimsby Ontario

(Continued from last week.)

Surroundings:
Establishment of the church-yard improvement fund owes much especially to Mr. Kenneth Groat, who with Mr. George Alexander and Mr. Arthur Ockenden, have since its inception, and to the appointment of Mr. Andrews, acted as secretaries.

The northern and eastern corner of the Rectory farm sold in 1812, to Dr. Road became alienated from congregational interest and was offered for sub-division. Possibilities of such a peril befalling the foremost corner of our extensive property was happily forestalled by purchase in the early spring of 1917. In disposing of the Rectory farm in 1808, three acres of the best soil adjoining the church possession were retained. The old apple trees dug out and the land replanted with peach trees. The corner next the Parish Hall was levelled and terraced for a bowling green, privet hedges planted on street lines and inner divisions, including the churchyard. The lane, on the

eastern boundary, given from the scale to an avenue and called St. Andrew's; and a newly opened road, to perpetuate memory of Dr. Road, to whose friendship with Archdeacon Nelles the exchange of the Uxbridge woodlands for the farm, was due.

tion primarily from the men of British birth, his fruit district, in numbers to 1914. They showed years drive-born boys the way. But the gallant youths trained from the first in St. Andrew's, needed restraining rather than leading. It was impossible to hold at home a boy who had reached the age of sixteen, for such before the armistice could not be found among our people. This generation more than upheld the patriotic traditions of their renowned forbears of the Niagara peninsula. Mr. Bennett, of Beamsville, tells that years ago a call-to-arms came while the congregation arms came led in worship, and at was assembled quietly left their the word, and went to prepare for a conflict in home hearths.

Organizations: Colverton has referred to Mr. Watsons, an added word to organize much in speaking will not be over, which have carried on the original and parochial interest on

service in the endless multiplicity of Christian effort. But a word to Sunday School Teachers and Choir, who throughout succeeding years or generations of gratuitous service, share the meek and ingratiating which become the rewards of most moral self-sacrificing effort. Your services are appreciated, deeply appreciated by many. Perseverance in them with constancy, steadily eliminating any selfish complacency or ambition known only to yourselves, while focusing your efforts on the highest opportunities those services evolve.

St. Andrews, has furthermore long been blessed with gracious and painstaking wardens, who maintain her parochial and missionary contributions at a good level, troubling in late years those of bygone days, sparing themselves no unpleasant effort to collect arrears and supply all requirements.

The Centenary:
To celebrate the approaching centenary, the exact date of which event (May 14th, 1919) has been conclusively settled through research made

the people, alarmed by its ecclesiastical significance there, persuaded Dr. Landy's successor to have it placed near the church steps, where it could more readily be watched. Here it remained in innocent utility till that dangerous high churchman of 1905, often, eloquently reported, again started it on the roll, setting it in its present position. No charges have been made against its return. But even when not smiting a dangerous doctrinal error it seems to have been a medium of strife between neighbors. For an animus was created in the heart of Mrs. Groat whose well was frequently robbed by Dr. Landy in seasons of drought and this great receptacle filled with water that babies might be dipped therein when baptism by effusion in a dry season, this outraged Rebecca felt would have been sufficient.

Backward and Forward:
Looking across the generations that have passed, as described in local records, one cannot but perceive the direct effects of parochial conflict so often pushing its hideous head above all else. Mr. Woolverton has suppressed much in the records he had gathered and wrote soft phrases where harsher were most in evidence. Candidates for the ministry decrease alarmingly, and in proportion as deference to God's name and to public worship wane in family life. Rarely will a son seek the ministry of service unless so directed by the parents. In whatsoever parish you may worship or whomsoever may serve you here in the era that lie before, do not be among those who one day adore, and the next abominate everything that the occupying incumbent attempts or does. Where men can be found with vision to undertake so daring an enterprise as to try to serve the many, and mellow the malice of mankind, surely the very recklessness of such an idealistic venture should touch the forbearance of all persons, not to magnify in firmities but to cover over any want of judgment. Let it be your aim to increase in density the atmosphere of charity which emanates from your parish, and you will uphold it and your own life as well. For, after all, love, or the want of it, depletes the bright or dingy coloring in which a parish-history is really written. Its products are the only acts worth recording.

May old St. Andrew's have many more happy jubilees; may her wholesome influences be widely disseminated, and may the tender affections and ready service which she has aroused in so many hearts be maintained in the generations of her children yet to be.

Addenda

The following interesting additions to the interior archives are expected at the time of the jubilee or shortly after:

Brass Tablets:

Perpetuating the memory Andrew Felt. The tablet will be affixed by the descendants of this staunch patron of the parish.

To the memory of Miss Adeline and Miss Alice Groat, esteemed and devoted laborers for many years in the congregation.

To the memory of the boys of Lake Lodge School who gave their lives for freedom in the great war; boys from far whose early impressions of reverent public worship were gathered at St. Andrew's.

A window to be set in near the

Font, the subject design "Christ blessing little children," donated by Mr. George Endacott, to beautify the church and mark the year of her Jubilee.

(Finished)

THE KIDDIES SHOW

Saturday afternoon February 13 is Kiddie Day, at Moore's Theatre, when the management of this popular playhouse will give the "kids" of the district a grand FREE SHOW. Mary Pickford in "Capt. Kid Jr." will be the big feature.

Mary MacTavish and her grand-father Angus MacTavish, are canny Scots who conduct a book and curio shop, Jim Gleason, a wandering author who hopes to write the great American novel, lives with them, and incidentally, Jim loves Mary. Through an error in the delivery of a lot of books which Jim had purchased, the wrong consignment is delivered to

the MacTavishes. Among these Jim finds a copy of "The Pirate's Revenge" and this is unintentionally retained after John Brent, a lawyer, explains that a mistake had been made in selling some of the effects of the late Henry Carleton, to whose millions Willie Carleton is sole heir. Brent repurchases the books and it later develops that "The Pirate's Revenge" contains instructions which will lead the possessor to a hidden treasure. Mary, Jim and Willie go in search of the treasure at Cabbage Center where they are mistaken for burglars. After considerable trouble the "treasure" is located, but this turns out to be a statement inclosed in a rust-eaten box announcing that "the richest treasure in the world to health and honest toil." Mary buys Butterfield Farm, where the "treasure" was located for \$3,000 and subsequently sells it to Willie for \$30,000 for railroad purposes and she finally finds happiness in the ardent love of Jim.

Also a Harold Lloyd comedy, only one show - starting at 2:30

SHILOH
30 DAYS COUGHS

St. Andrew's Churchyard

In 1912 the stable was built and the caretaker's cottage overhauled; new fences were built along boundary lines and roadways; trees were planted on St. Andrew's Avenue, Bolton Street and the row of maples on Main Street continued from the church to the western boundary of graveyard. A boulevard along St. Andrew's Avenue was built up and needed in 1913. Many roots of Japanese Ivy have been planted around the foundations of the church and parish hall, many have died, but the existing vines give a cared-for and ancient look to the buildings, as well as beauty. One could wish that the old church at her centenary were well overlaid with English Ivy making it look cosy and green in snowy months as in summer. Japanese Ivy is a graceful hot-weather covering, but it lacks the veneration effect of English Ivy. All Saint's Church, Niagara Falls, is an envy in this respect.

Our great maples are the glory of our surroundings, nor dare we fail to mention the lovely old weeping willow trees and shrubs to the hands of long ago that planted these "trees" which uplift the thoughts, and even soften the sorrows of our day. If members of a single congregation would in each Spring of their lives plant one or a few trees to beautify, how much more proud we should be of our village. Grimsby has been made beautiful by nature, but not in many spots by man. A return here from Oakville with its beautifully tread streets leading to the lake shore, makes Grimsby appear more commonplace. Our churchyard with its choicest soil, its lovely views toward mountain or lake looks but a poor bare corner when one returns to it from that beautiful old churchyard of St. Mark's, Niagara-on-the-Lake. 'Tis the stately elms and silent pines of the latter which chiefly declare its superiority. A look down the long drive, lined by its double row of acacias which leads to the pretty little white church at Burlington, is an invitation to peace and hopeful contemplation. These wanderings are not meant to reflect upon ourselves, but to move someone perchance to plant similarly and we shall have no rivals.

Church property in the ideal should be one of the most beautiful possessions in every village or town. I should like to see St. Andrew's, Grimsby, made more inspiring ideal in all respects than an other parish in the diocese of Niagara.

Services:
Services in the little Parish Church may be described as bright, devout and varied. These on no two Sundays of the month are just alike; the first Sunday having Matins with plain Celebration; the second, an early Celebration, with Matins and state prayers at eleven; the third, a choral Eucharist; fourth an A.C.E. Celebration, followed by Matins and Litany at mid-day; fifth, children's Eucharist. This difference should give width of appreciation and outlook, and eradicate that narrowness of early upbringing which thinks but one service tolerable - "that to which I have been accustomed."

From visitors, both lay and clerical, are frequently heard expressions of the services' uplifting tone. Every parish, no doubt, has its occasions when certain services may be regarded as specially impressive. St. Andrew's, we hope, not devoid of its goodly portion; the service of intercession for the fallen heroes of the great war was, we think, worthy of a long remembrance.

Roll of Honor:
Voluntary enlistment, to fight off the Teutonic terror of men identified with the congregation, showed a spirit not easily rivaled by any community in Canada. One hundred and thirty names may be seen on the long double column suspended in the tower-porch, a willing offering for freedom, and a conferring of much honor upon their fellow-worshippers. We are heirs to the dis-

count for many years, under the protection of Mrs. Dr. projects, entailing many difficult and arduous. Their considerable enterprise cannot be never-ceasing ended. A lasting and too highly praise to their courage is proud monument the finest and most picturesque structures for all demands, affording facilities attractive and commendable, for and through the de-

signed, for non-parading accommodation, to enjoy its allid has tolled and met every obligation. The indebtedness on the building is now reduced to less than \$1,700.

The Women's Auxiliary, of more recent creation than the Guild, yet claiming a recent service, was in early years fostered by Mrs. Adolphus Pettit. It has a very worthy and strong record of service rendered, embracing its faith and purpose. Gladly garments dispatched to isolated soldiers, and to far-away lands, came known people to feel through practical touch that sacrifice and thought of others, which is the very essence of Christianity. Miss Metcalf and Miss Woolverton hold office on the Diocesan and Dominion Boards of this far-reaching organization. One would fain speak of other activities and persons, all leading val-

by Mr. Kenneth Groat, the congregation spontaneously rose in generous effort to adorn their much beloved House-of-God by beautifying it with a very handsome oak-paneled ceiling.

So costly an enterprise would at any other time have been regarded as quite beyond attainment. But sentiment can open purses and beget activity. In an astonishingly short time money seemed on the way for this commendable restoration, brightened by the liberal bequests of Mr. George F. Little and Miss Alice Groat. Mr. Parsons has been the active and guiding spirit in this heavy undertaking; and assisted by his co-warden, Mr. Pottinger, and a good finance committee, the prospects of a glad fulfillment seem hope fully on the way. We trust its consummation may be a matter of gratification to many worshippers in the generations to come.

Font:

The font has been overhauled by Mr. Groat in his "restoration" of the parish. This restored reminder of life renewed Dr. Landy had seen it to him from England, a seeming labor of sentiment with a mountain of stone so near. The journey must have given it a taste for travel, as we read of its moving up and down the church at intervals according to the doctrinal disposition of the day. It was first placed at the door of entrance but

Listen!
Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.
Peps contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.
In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.
FREE TRIAL Cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.
Peps

Big Developments in Evangeline's Land

The new Dominion Atlantic Railway Passenger Station at Bridgetown.

Not only is Railway making the Canadian Pacific advance with things advances in accordance, and pre-necessities of the improvement providing every modern convenience for the convenience of its subsidiary for the public, but all progressive. The lines are similarly progressive. The Dominion Atlantic Railway, which Dominion Atlantic of Nova Scotia serves a large portion of the beautiful coast and runs through now owns and of Evangeline's Hotel at Digby. Operates The Fine accommodation, providing first class bora of tourist. A new night at the large annex. A new night at the large annex. A new night at the large annex.

longer service, but only carloads of through merchandise are carried. When on a trip of inspection over the Dominion Atlantic Railway, at the end of November last, Mr. Grant Hall, vice-president of the C. P. R., expressed the desire to have the D.A.R. equipped in the near future with steel rails much heavier than those at present laid. He said that this work would probably be undertaken when the effects of war conditions had disappeared. Important improvements are being carried out along the line and arrangements are being made for the erection of a new station at Digby which will provide the most up-to-date facilities for tourists and other traffic and add considerably to the beauty of the town. It is estimated that during 1919, 60,000 tourists visited Nova Scotia and spent there about \$1,000,000. Recently a new station was opened at Bridgetown, much to the satisfaction of the public of that town. It is a handsome building

24 ft. x 54 ft. with 30 ft. overhanging on each end and has in front a tann walk 350 feet long and 12 feet wide. The building is very conveniently designed. It has a cement basement. The outside finish is stone on trunk with, centred with plain pebbled work, with smooth finish above and below. The roof is asbestos. The inside consists of gander room, 30 ft. x 34 ft., office 14 ft. x 14 ft., ladies' waiting room, 12 ft. x 34 ft., and baggage room 24 ft. x 12 ft. The inside finish is of Douglas fir and birch, finished in the natural wood. The ceilings and side walls are made finish tinted in cream. There are also up-to-date conveniences and the heating plant consists of a Cumberland hot air furnace manufactured and installed by Mr. O. E. Banks, of Bridgetown, who also executed the plumbing. The inside and outside decorating was in charge of Mr. Harry Searles. The whole work, including the building of a freight shed 50 ft. x 45 ft., on the

opposite side of the track, was built by contract by J. H. Hicks & Sons, under the personal supervision of Mr. E. A. Hicks, of that firm, who has already built seven Dominion Atlantic Railway stations. The Dominion Atlantic Ry. has also added to its system the hotel at Kentville now known as the "Aberdeen." Kentville is an important and growing centre, and the fact that it is now to have modern hotel accommodation will add tremendously to its benefit. The "Aberdeen" is splendidly situated, and will be made very attractive. It will be renovated and refurbished from cellar to roof. Many of the rooms will be equipped with private baths. The work of renovation will begin at once, but will be so conducted that guests will not be disturbed. The Aberdeen will continue to be operated the year-around, and cater to the general and commercial interests as well as to the tourist traffic.

Local Items Of Interest

Tomorrow is election day. Saturday is St. Valentine's Day. County Council opened its postponed session yesterday.

Jas. Loggie of Dunnville spent the week end in town.

Mr. and Mrs. Edw. Hand and Mr. Jas. Hand are all confined to the house with illness.

On all local advertisements, such as "For Sale"—"Lost"—"Wanted"—"To Rent"—etc.; an additional charge of Ten Cents will be made, if they are not paid for within ten days after date of insertion. This is made necessary by the immense number of these advertisements we receive over the phone and which lie in our books for a very considerable period, before payment is made. THE INDEPENDENT.

FARM FOR SALE OR to Rent, containing 50 acres, concession 2, lot E part 5, recently occupied by Mr. A. Renner. Apply to W. B. Hyslop, Greenville, Ontario.

NOTICE—This is to notify the public that P. E. Crooks holds a lien note on live-stock advertised for sale by C. J. Crooks. Purchasers will govern themselves accordingly.

WANTED—Married man to work 25 acre fruit farm on shares. Good house, everything found. Apply W. J. Thompson, 29 Ontario St., St. Catharines.

Dr. D. Clark has been away the past few days, in Hamilton, attending Dr. Roach's post-graduate clinic on partial-restoration and removable bridgework.

Klenzo Liquid the new antiseptic and germ killer. For use in atomizer, as a gargle or mouth wash. Large bottles 50 cents at Stewart's Drug Store.

The members of the Loyal Orange Lodge, No. 3732, GRIMSBY, are holding an open Box Social and Dance in the lodge-rooms on Wednesday evening, February 13, 1930, at 8 o'clock. The public are cordially invited.

FARMS WANTED—If you wish to sell your farm communicate with us—we have buyers now. It will cost you nothing unless we make a sale. Bell's Limited, GRIMSBY, phone 405 or 361.

FOUND—In front of the Hotel GRIMSBY on Saturday afternoon, February 7th, 1930—a Ladies' Handbag. Owner may have by identification, and payment for this notice at the Hotel GRIMSBY.

FARMERS—Plowing and discing with this up-to-date tractor equipment and well experienced operator. Increase your crop for 1930. Hour, acre or contract. Orders taken now. J. Watson, GRIMSBY P.O.

Mrs. A. W. Moore was called to Georgetown, Pa., on Wednesday evening last to attend the funeral of her brother Mr. John Kinsey of that place who passed away on Wednesday afternoon.

St. Valentine's Day, Sat. Feb. 14th is going to be a joyous day for the kiddies in this district, for that is the day of the grand FREE SHOW in Moore's Theatre. Every kid in the district is invited to attend. Only one show and it starts at 2.30. Be on time.

Dr. Newton Cossett, last week sold his half section of land adjoining the town of Stettler, Alta., for a nice tidy sum. The "Doc" had two and a half sections in that district but disposed of the two sections last fall. This last sale cleans him out of western property entirely.

Clothes line thieves are at work in west end of the town. During the past week Chief Konkle has received several complaints from residents in the western section that their clothes lines have been stripped. The chief issues a warning to all householders to take their washing in at night and not leave it out for the thieves to get away with.

Chief of Police Konkle came across a very sad case of distress this morning when he found a Indian family residing on John Street all sick in bed, no fire in the house, no one to nurse them and very little food at hand. The mother and children have been sick for some time and on Monday the father was taken ill and had to go to bed. The family have money, but are unable to get out and procure the necessities of life and unable to attend to themselves if they had them.

ODDFELLOWS NOTICE—Every mothers' daughters' son of Grimsby and district that belongs to the Independent Order of Oddfellows is specially invited to be present at the Lodge Room next Monday evening to witness the beautiful exemplification of the 3rd degree by Crescent Lodge of Hamilton. After the 3rd degree has been exemplified the 4th degree will take place as usual. Don't forget to wear your rubber suit. G. E. Miller, Secretary.

Golden Text: "The same Lord is Lord of all and is rich unto all that call upon Him."—Rom. 10:12.
7 p.m.—"The Eyes of the Lord."
Monday 8 p.m.—B.Y.F.U.
Wednesday 8 p.m.—Prayer and Praise Meeting.

Vance Farrell is home from R. P. S., Toronto.

There are very few if any real cases of "Flu" in GRIMSBY.

John H. Forman has been on the sick list the past week.

FOR SALE—Thoroughbred White Leghorn cockerels. Apply to Mr. Birrell, phone 348, GRIMSBY.

Miss Marguerite and Miss Vera Farrell are both greatly improved and are now well on the road to recovery.

LOST—On Friday night, a hand bag on Main or Elizabeth St. Finder please return to INDEPENDENT Office.

FOR SALE—1 Heater, cheap; 2 shot guns, new; 1 pair of boys' bob sleighs, cheap. Mr. Lewis, Robinson Street N.

Mr. and Mrs. Jos. H. Ness, were in Smithville on Tuesday attending the funeral of their nephew Robert Telfer, who passed away in that village on Sunday, from pneumonia.

FOR SALE—Number one Chatham incubator capacity 50 eggs, in No. 1 shape; also a Daisy churn, in good condition. For particulars 'phone 407, GRIMSBY.

The Women's Institute invite the public to the opening of their new rooms on Saturday afternoon, Feb. 14th. Tea will be served commencing at 4 o'clock and on in the evening. Tea 25c; special dishes extra.

W. J. Drope is sufficiently recovered from his long illness to be out and around again, although he is far from being fully recovered. He will leave on Friday for a trip to Florida to try and recuperate in that southern climate.

All children who wish to attend the "Kiddies Show" in Moore's Theatre on Saturday afternoon may be accompanied by their parents, if they cannot come alone. There will be one show—2.30.

FALSE REPORT—There has been a report going around the village for the past week to the effect that we had "flu" in our farm. This report is false and without foundation; and our customers need have no fear in coming to the store as usual. Jas. H. Harris, Grocer, GRIMSBY.

FOR SALE—Power spraying machine, Friend engine and pump. Five barrel tank and wagon especially built for this purpose. Short coupled with exceedingly light draft. All complete and in good condition. This is one of the best spraying outfits in this section. Apply Bell's Limited, phones 405 or 361, GRIMSBY.

FRUIT AND VEGETABLE GROWERS ORGANIZATION—EDUCATION—CO-OPERATION—Agriculture will be the big end of industry until vitalized by organization and co-operation. Co-operation is a merger of individual effort. A Club is the first stage of co-operation. Your club is just what you make it. Those who never make mistakes never accomplish much. The farmer who does not respect his industry is a traitor to it. The industry that gives you bread deserves your loyal support—Monday, 8 p.m., in the Council Chambers.

The prospects for cheaper clothing are not at all bright. Canadian Woolens and cottons are still being shipped to Europe and until this condition is reversed, price will be high. However some stores are selling goods at much higher prices than others. Far rare sell their merchandise at the most reasonable prices. They buy and sell their own goods. They buy and sell for cash, and are satisfied with a smaller profit. We would like you to call and look over our values. The better judge you are, the surer we are to sell you. We make suits to your order. Every coat and vest tried on and satisfaction guaranteed. Always at your service. Farrer Clothing Manufacturers, 5 Market Square. We give premium tickets.

NEWS ITEMS

"Canada will find that livestock production will, from an industrial point of view, prove her greatest national asset"—M. S. Arkell, Livestock Commissioner.

A shortage of cattle is predicted by those who know. Farmers who are strongly urged to extend breeding. The export markets can take all the meats that can be shipped from the Dominion for years to come. The returns will help to pay the war debt.

"This country will not be affected by the impending world shortage of meats until the end of 1930" is a recent statement of the British Food Controller. Canadian Livestock producers will be quick to grasp its significance for their export trade. Here is a pointer to Canadian business. United States banks and loan companies "are letting out all the money they can to farmers who will feed or breed."

Letters To The Editor

IS THIS PROFITEERING?

Editor, Independent:—
Sir—I have been going to write you several times about "Profiteering in Grimsby." I have run across several instances in the last few months where grocers and even the coal dealers have been robbing the public. The last instance occurred on Monday last. I went to one of our leading grocers for a tin of Diamond Crystal Syrup. I was not surprised to hear it had gone up—which is quite the usual thing every week—but in this case the price jumped about 33 per cent. on the stock the grocer had already in his store. The usual price for this brand of Syrup has been 40 cents per tin. The new price at this particular store is 53 cents per tin.

When I arrived home I opened my parcel and found the tin of Diamond Crystal Syrup marked plainly 40 cents. To be sure the grocer had not made a mistake, I went into his store on Tuesday and asked the price of Diamond Crystal Syrup, this was the reply from the clerk: "53 cents per tin, but we are sorry we have none in, just now, they will be in in a few days."

Now Mr. Editor, this is stealing, and if I stole 15 cents from that grocer he would probably have me landed in jail. Can you inform what action I can take to have this grocer prosecuted? Thanking you for the space and trusting you will be able to answer my question.—FOOR PUBLIC.

ANSWER—The only way that this customer could bring any case against the grocer would be through the Board of Commerce. It was not stealing in the true sense of the word, as the customer gave the price the grocer asked for the goods—it was simply profiteering, or extortion. The customer does not say what he found the coal dealers guilty of. We did not think coal dealers would ever be guilty of any wrong except that they might refuse to supply us with coal on credit.—The Editor.

THE U.F.O. MEETING.

Grimsby, Feb. 10th, 1920

The Editor, Independent—

Sir—The Grimsby Branch of the U.F.O. inserted and paid for an advertisement of meeting in your issue of 4th inst., the heading of said advertisement as handed in was "Fruit Growers" but it appeared with the word "Shun!" added without the knowledge or consent of the advertisers. Of course all those with a military training were aware that this was a contraction for "Attention." You will agree with me that the word "Shun!" might convey a different meaning to the civilian, so I hope you will accept this correction in the spirit in which it is given.

Further under "Facts and Figures," in the same issue, you refer to Mr. Halbert as President of the U.F.O. Now Mr. Halbert is not President of the U.F.O., but a member of the Federal House for North Ontario and his views on the tariff question are not acceptable to the large majority of U.F.O. Fruit Growers.

In reference to your hostile criticisms of the Hon. F. C. Biggs, under the same heading, surely they are not in the interests of the Farmers of the County of Lincoln, as it is generally admitted that his Provincial Good Roads Policy is more progressive and better calculated to benefit the County as a whole than any other so far designed.

Yours faithfully,
Hamilton Fleming,
Chairman Grimsby Branch U.F.O.

IMPROVEMENTS AT GRIMSBY BEACH

A visit was paid to GRIMSBY Beach last week by some of the officials and Percy Finkle, dance hall manager extraordinary. Before they left it was definitely announced that the dance hall would be enlarged before the coming season opens and a new and wider verandah built on it. It is intended to increase the dancing space of the hall by at least a half.

Several new boat houses, bath houses and lockers were ordered built at the lake front for Tommy Wilcox and Tommy was instructed to purchase a lot of new boats, bathing suits, etc.

Several swings for the picnic grounds have been built during the winter and other slight improvements made.

Obituary

JACOB ALBRIGHT DEAD

The death occurred in Hamilton on Thursday evening of Jacob Albright of the firm of Albright and Dods-worth, undertakers.

He was born near Beamsville, in the township of Clinton, on April 14, 1846, and started in the undertaking business with W. R. Pray Hamilton, twenty-seven years ago. With the exception of the short time he spent in Toronto, in the employ of Alex. Millard, he had always resided in Hamilton. Returning from Toronto, he entered the employ of Blackford & Son, with which firm he was identified for twenty years. When after the death of the head of that firm, the business changed hands, Mr. Albright engaged in business with A.H. Dods-worth, becoming a member of his firm under the name of Dods-worth and Albright. He had been with Mr. Dods-worth for about five years, and his death has caused sincere sorrow among his associates in this business.

DEATH OF ROBERT KIDD.

The death occurred in Toronto on Friday of Robert Kidd, formerly of GRIMSBY for some years until last the dreaded "flu."

Deceased gentleman had lived in GRIMSBY for some years until last fall, being employed in the moulding shop of the Metal Craft Co.

He was staying with his brother in Toronto when taken ill. He leaves a wife and small family to mourn his loss.

DEATH OF JOHN KIDD

Word was received in GRIMSBY on Tuesday night of the death in Wapella, Sask., on Tuesday of Mr. John Kidd, brother of Capt. W. W. Kidd of GRIMSBY. No particulars were given.

Mr. George Kidd who had been visiting with his brother here for the past few weeks received a telegram on Sunday that John was ill and immediately left for the West, but would not have reached Wapella before eleven o'clock last night and consequently was not there at the time of death.

BENEFIT

Mr. and Mrs. David Fleming wish to thank their many friends and kind neighbors for their sympathy and beautiful floral tributes in their bereavement.

IN MEMORIAM

In loving memory of John Cope, who died February 6th, 1913.
Seven years have gone dear son,
Your troubles are o'er,
Your smile will gladden my heart no more.
On earth there's sorrow, in Heaven there's rest.
They miss you most who loved you best.
—Father.

District Summary

News of the District Culled From Our Exchanges

St. Catharines Public Schools cost \$55,030 to run last year.

Niagara District Orangemen will celebrate the 12th of July in Dunnville.

A. E. Foister has been appointed city clerk of Welland at a salary of \$1500 a year. He is a returned man.

Premier Drury announced last week that the Ontario House will open on March 24th.

It cost Welland city \$12,561 to run its Police Department in 1919. Fines collected \$12,546.

The Niagara Falls street railway franchise expires in two months. The Hydro has had an engineer looking over the road. The council appears tired of delay, and favors the taking over the road by the city at the expiration of the franchise.

The marriage was solemnized Wednesday afternoon in St. Paul's Presbyterian Church, Hamilton, of Miss E. Louise Teeter of Smithville, to G. Leslie Bell, M.D., of Blinbrook, Dr. and Mrs. Bell will reside in Blinbrook.

Ottawa, Feb. 4.—Canada's population is estimated by the census branch of the trade and commerce department at \$33,102. The census branch has based its estimate for the year 1919 on the known increase in population, as shown by the census of 1901 and 1917. Such calculations have in the past proved to be approximately correct.

Bridgeburg, Feb. 2.—Bridgeburg is to have a co-operative store backed by the Trades and Labor Council, according to a decision just reached by the various crafts here composing the Council. J. Keene of Brantford has just been here interviewing the local Trades and Labor Executive in regard to the project and it is said that sufficient money will be available for the committee to allow the early starting of a co-operative store.

The South Grimsby Council met in special session last week to again consider the feature of the suit now pending at Niagara Falls, re the County of Lincoln vs. South Grimsby. The council in support of the case W. M. McBrayne of Hamilton, was present and went into the matter carefully with the local Council. The matter was allowed to stand as at present.

St. Catharines, Feb. 6.—The Village of Port Dalhousie is making a move to get a waterworks system, and it is likely the supply will come from St. Catharines. When the big pipe line from Lake Erie to Lake Ontario is finished, work in which is to be commenced this spring, all places along the Welland canal will get their supply from Lake Erie. The digging of the new Welland ship canal is destroying their source of supply and the government is building the pipe line, which will cost several million dollars.

Bridgeburg, Feb. 3.—Fire early Sunday, which was due to a defective chimney, completely destroyed the residence of William Grant, near Olinore street. Mrs. Grant, an invalid, was carried out of the burning house just in time to save her from perishing in the flames, and she was cared for by neighbors. The fire had gained considerable headway before it was discovered. The firemen were greatly hampered owing to frozen hydrants. The loss is about \$5,000. The amount of insurance is not known. With the thermometer around ten degrees below zero, the work of fighting the fire was very difficult, but it was confined, however, to one house.

Thorold, Feb. 2.—At 2 p.m. on Saturday fire totally destroyed the Henderson building on Ormond St., occupied as a poolroom, barber shop and restaurant downstairs and a rooming house upstairs. The Osborne block, only a few feet away was saved. The firemen's clothes were covered with ice and the temperature was below zero. The total loss is about \$10,000, including Victory Bonds and money lost by the roomers who were foreigners. An overheated stovepipe is thought to have started the blaze.

The wave of child crime has struck Thorold and the authorities are wondering where it will end. Archie McKeague went to his news store Monday afternoon and upon opening the door heard a scrambling inside. He was surprised but asked if there was any person in the building and upon receiving no reply made a search and was surprised to find two young lads hiding under a stairway. The two lads were handed over to chief of police Perry. At the Police station it was learned that the burglars had reached the immature age of 9 and 14 years respectively and are of foreign parentage. At first they denied having entered the store, saying that some other boys had done this but upon further enquiry it was learned that they had planned the entry. First they went to Barton's garage and secured the screw driver with which they removed the back door. After gaining entrance the cash register was robbed of some coppers and a small amount of silver which had been left in the till Saturday night. Several small toys were also taken. One of the boys had taken the coppers to a store and had them changed into sil-

ver. This is not the only store that has been entered recently and it is understood the social service council are assisting the authorities to see what can be done in the matter.

According to the report of John A. Talbot, chief constable of the township of Crowland, violations of the Ontario temperance act by residents of that township totalled a large amount during the fiscal year just ended. According to his statement, the total amount of fines collected during the year for violations of the Ontario temperance act, mostly for smuggling totalled \$12,507.95. The total number of cases during the year in Crowland was 655, of which violations of the Ontario temper-

ance act constituted 184, gambling 55, theft 49, assault 59, opium 22, etc.

St. Catharines, Feb. 5.—W. E. Emmett having complained that a relative of his, a high school girl named Alma McDonald, had caught the smallpox because she had been asked by the science master at school to lend over books of another pupil who had taken the disease, while he fumigated them, the board of health at its meeting to-night decided to ask for an investigation. Principal A. E. Connors stated to-night that as he understood it the teacher had simply fumigated the girl's books himself instead of waiting for the caretaker in order to save time. The McDonald girl happened to be in the room, and he may have asked her to hold the books for him. The McDonald girl's mother is a widow and a dressmaker. The house was quarantined and her source of revenue cut off. She sent in a bill for \$23 against the board of health, which was ordered paid without question, as the board having closed up the house, was responsible for the expenses in such cases.

Beamsville Express—About fifty guests from Hamilton, Toronto, GRIMSBY, Beamsville and surrounding country, extended congratulations and good wishes to Mr. and Mrs. Edward Keith last Friday, Jan. 30th, on their completion of twenty-five years of happy married life. The home was beautifully decorated with pink carnations and white narcissus, and a buffet luncheon was served. Many and costly gifts testified to the esteem in which the couple were held. A delightful time was spent by all in helping Mr. and Mrs. Keith to live over again that happy day of twenty-five years ago.

Bridgeburg, Feb. 6.—U. S. Collector of Customs Davidson, across the border, today declared that it is found that any whisky is being illegally brought into the United States he will cancel the usual courtesy of not inspecting dining cars and other employees' quarters on passenger trains across the line from here. Collector Davidson has a number of inspectors engaged in train service here, but there are no special inspectors for this purpose. He declares, however, that more men will be asked for if any instances are found of whisky smuggling. Several seizures have been made by the U. S. customs on trains crossing here, but only one in which employees of the railway were implicated, and that consisted of eighteen quarts found in Pullman quarters. A story in circulation is that plainclothesmen will be placed on service shortly, watching the border, most of them being formerly members of the Boston police force, discharged owing to the big strike there.

Welland, Feb. 2.—At the closing session of the County Council here it was decided that the council co-operate with a deputation from Fort Erie to interview the Dominion Government relative to the erection of a Peace Memorial Bridge at or near Fort Erie and get the Government to work in conjunction with the Commission from the United States Congress. Deputy Reeve W. L. Horton of Pelham has also urged a Jail Farm for the county. He claimed that jail confinement made criminals instead of curing them, and that for the general health and from a moral standpoint and also as a better corrective method, Welland should have a Jail Farm. It was decided after the motion carried unanimously, that the council consider the advisability of joining with Lincoln county in the establishment of the same, and that the suggestion be laid before the Dominion Government to send an official to the Welland Council. The question of a War Memorial Hall was also brought up by the members.

On Saturday, January 31, the home of Mr. and Mrs. John Guyatt, Blinbrook, was the scene of a very happy gathering, when, with about one hundred guests they celebrated the fiftieth anniversary of their wedding day. The unusual severity of the weather outside but served to emphasize the cheer within. Shortly after 7 o'clock the company sat down to an appetizing luncheon served in the basement, at three long tables prettily decorated with yellow daffodils and yellow candles. A number of witty and clever speeches contributed to the enjoyment of the repast. All joined in eulogizing the character and life's work of the aged couple who have always lent their support to every cause which tended to the uplifting of the moral and religious tone of the community, not confining themselves to any one church, but broad-mindedly being active workers in each. Just before rising from the table, Major B. L. Guyatt, of Toronto, on behalf of the members of the family, presented their father and mother with a tray full of gold coins, saying that these coins were a symbol of the way the family regarded their parents—as being of pure gold. Other costly and beautiful gifts were received, among them being a pearl and diamond emerald and handsome clock to Mrs. Guyatt, and a gold watch for Mr. Guyatt from the members of the Blinbrook Baptist church. The evening was spent in music and games, the guests being loathe to leave, as such a celebration occurred but rarely in any community. No one enjoyed the day's social intercourse more than Mr. and Mrs. Guyatt themselves, both asserting that such evidences of true friendship were a reward for past endeavors and an inspiration for future efforts.

EMMY WENLEN ALSO A BRILLIANT DANCER

From her musical comedy and operetta experience, Emmy Wenlen the scintillating young star of the Metro photoplay, "The Belle of the Season," which will be seen at Moore's Theatre on Saturday night, Feb. 14th, is acknowledged one of the foremost exponents of the terpsichorean art. Even since she has become a Metro screen star, Miss Wenlen insists on setting aside sufficient time to enable her to keep in touch with all modern steps, as well as continuing her practice in ballet and eccentric dancing, which she declares, is one of her chief diversions from the strain of studio work. In "The Belle of the Season" Miss Wenlen has the delightful part of a gorgeously gowned young heiress, which is the most becoming role she has had for some time.

DOCTOR URGED AN OPERATION

Instead I took Lydia E. Pinkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Pinkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me and my work is a pleasure. I tell all my friends who have any trouble of this kind what Lydia E. Pinkham's Vegetable Compound has done for me."—NELLIE R. BERTHOUDMAN, 600 Calverton Rd., Baltimore, Md.

It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this famous remedy, Lydia E. Pinkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

Hist ry Of St. Andrew's Church Grimsby Ontario

(Continued from last week.)

Surroundings:

Establishment of the church-yard improvement fund owes much especially to Mr. Kenneth Groat, who with Mr. George Alexander and Mr. Arthur Ochendon, have since its inception, and to the appointment of Mr. Andrews, acted as secretaries.

The northern and easterly corner of the Rectory farm sold in 1855, to Dr. Read became alienated from congregational interest and was offered for sub-division. Possibilities of such a peril befalling the foremost corner of our extensive property was happily forestalled by purchase in the early spring of 1917. In disposing of the Rectory farm in 1908, three acres of the best soil adjoining the church possession were retained, the old apple trees dug out and the land replanted with pear trees. The corner next the Parish Hall was levelled and terraced for a bowling green, private hedges planted on street lines and inner divisions, including the churchyard. The lane, on the

easterly boundary, given from the property, was lifted in the social scale to an avenue and called St. Andrew's; and a newly opened street on the north was named Bolton, to perpetuate memory of Dr. Read, to whose friendship with Archdeacon Nelles the exchange of the Exbridge woodland for the farm, was due.

tion primarily from the men of British birth, who came in no small numbers to this fruit district, in years prior to 1914. They showed the native-born boys the way. But our gallant youths trained from the front in St. Andrew's, needed restraining rather than leading. It was impossible to hold at home a boy who had reached the age of sixteen, for such before the armistice could not be found among our people. This generation more than upheld the patriotic traditions of their renowned forbears of the Niagara peninsula. Mr. Bennett, of Beamsville, tells that years ago a call to arms came while the congregation was assembled in worship, and at the word, men quietly left their pews and passed out to prepare for a conflict in defence of their own home hearths.

Organizations

While Mr. Woolverton has referred to organizations, an added word will not be over-much in speaking of the original two, which have carried on mission and parochial inter-

ned service in the endless multiplicity of Christian effort. But a word to Sunday School Teachers and Choir, who throughout succeeding years or generations of gratuitous service, share the meagre and ingratiate which become the rewards of most moral self-sacrificing effort—Your services are appreciated, deeply appreciated by many. Persist in them with constancy, steadily eliminating any selfish complacency or ambition known only to yourselves, while focusing your efforts on the highest opportunities those services evolve.

St. Andrews, has furthermore long been blessed with gracious and painstaking wardens, who maintain her parochial and missionary contributions at a good level, tramping in late years those of by-gone days, sparing themselves no unpleasant effort to collect arrears and supply all requirements.

The Centenary:

To celebrate the approaching centenary, the exact date of which event (May 15th, 1919) has been conclusively settled through research made

the people, alarmed by its ecclesiastical significance there, persuaded Dr. Lundy's successor to have it placed near the chancel steps, where it could more readily be watched. Here it remained in innocent utility till that dangerous high churchman of 1905, often elopically reported, again started it on the roll, settling it in its present position. No charges have been made against its return. But even when not emitting a dangerous doctrinal savor it seems to have been a medium of strife between neighbors. For an animus was created in the heart of Mrs. Groat whose well was frequently robbed by Dr. Lundy in seasons of drought and this great receptacle filled with water that babies might be dipped therein when baptism by effusion in a dry season, this outraged Rebecca felt would have been sufficient.

Backward and Forward:

Looking across the generations that have passed, as described in local records, one cannot but perceive the direct effects of parochial conflict so often pushing its hideous head above all else. Mr. Woolverton has suppressed much in the records he had gathered and wrote soft phrases where harsher were most in evidence. Candidates for the ministry decrease alarmingly, and in proportion as deference to God's name and to public worship wane in family life. Rarely will a son seek the ministry of service unless so directed by the parents. In whatever parish you may worship or whomsoever may serve you here in the era that lies before, do not be among those who one day adore, and the next abominate everything that the occupying incumbent attempts or does. Where men can be found with vision to undertake so daring an enterprise as to try to serve the many, and melt the maladies of mankind, surely the very recklessness of such an idealistic venture should touch the forbearance of all persons, not to magnify in firmities but to cover over any want of judgment. Let it be your aim to increase in density the atmosphere of charity which emanates from your parish, and you will uplift it and your own life as well. For, after all, love or the want of it, depicts the bright or dingy coloring in which a parish-history is really written. Its products are the only acts worth recording.

May old St. Andrew's have many more happy jubilees; may her wholesome influences be widely disseminated, and may the tender affections and ready service which she has aroused in so many youths be maintained in the generations of her children yet to be.

Addenda

The following interesting additions to the interior archives are expected at the time of the jubilee or shortly after:

Brass Tablets: Perpetuating the memory Andrew Pettit. The tablet will be affixed by the descendants of this staunch patron of the parish.

To the memory of Miss Adelaide and Miss Alice Groat, esteemed and devoted laborers for many years in the congregation.

To the memory of the boys of Lake Lodge School who gave their lives for freedom in the great war; boys from far whose early impressions of reverent public worship were gathered at St. Andrew's.

A window to be set in near the

Font, in subject design "Christ blessing little children," donated by Mr. George Endacott, to beautify the church and mark the year of her Jubilee.

(Finished)

THE KIDDIES SHOW

Saturday afternoon February 14 is Kiddies Day at Moore's Theatre, when the management of this popular playhouse will give the "kiddies" of the district a grand FREE SHOW. Mary Pickford in "Capt. Kid Jr." will be the big feature.

Mary MacTavish and her grand-father Angus MacTavish, are canny Scots who conduct a book and curio shop. Jim Gleason, a struggling author who hopes to write the great American novel, lives with them, and incidentally, Jim loves Mary. Through an error in the delivery of a lot of books which Jim has purchased, the wrong consignment is delivered to

the MacTavishes. Among these Jim finds a copy of "The Pirate's Revenge" and this is unintentionally retained after John Brent, a lawyer, explains that a mistake had been made in selling some of the effects of the late Henry Carleton, to whose millions Willie Carleton is heir. Brent repurchases the books and it later develops that "The Pirate's Revenge" contains instructions which will lead the possessor to a hidden treasure. Mary, Jim and Willie go in search of the treasure at Cabbage Center where they are mistaken for burglars. After considerable trouble the "treasure" is located, but this turns out to be a statement inclosed in a rust-eaten box announcing that "the richest treasure in the world is health and honest toil." Mary buys Butterfield Farm, where the "treasure" was located for \$5,000 and subsequently sells it to Willie for \$20,000 for railroad purposes and she finally finds happiness in the ardent love of Jim.

Also a Harold Lloyd comedy.
Only One Show—Starting at 2.30

SHILOH
3088 COUGHS

St. Andrew's Churchyard

In 1912 the stable was built and the caretaker's cottage overhauled; new fences were built along boundary lines and roadways; trees were planted on St. Andrew's Avenue, Bolton Street and the row of maples on Main Street continued from the church to the western boundary of graveyard. A boulevard along St. Andrew's Avenue was built up and seeded in 1913. Many roots of Japanese Ivy have been planted around the foundations of the church and parish hall, many have died, but the existing vines give a cared-for and ancient look to the buildings, as well as beauty. One could wish that the old church at her centenary were well overladen with English Ivy making it look cosy and green in snowy months as in summer. Japanese Ivy is a graceful hot-weather coverlet, but it lacks the veneration effect of English Ivy. All Saint's Church, Niagara Falls, is an envy in this respect.

Our great maples are the glory of our surroundings, nor dare we fail to mention the lovely old weeping willows, thanks many and sincere to the hands of long ago that planted those trees which uplift the thoughts, and even soften the sorrows of our day. If members of a single congregation would in each Spring of their lives plant one or a few trees to beautify, how much more proud we should be of our village. Grimsby has been made beautiful by nature, but not in many spots by man. A return here from Oak-

ville with its beautifully tree-lined streets leading to the lake shore, makes Grimsby appear more commonplace. Our churchyard with its choicest soil, its lovely views toward mountain or lake looks but a poor bare corner when one returns to it from that beautiful old churchyard of St. Mark's, Niagara-on-the-Lake. 'Tis the stately elms and silent pines of the latter which chiefly declare its superiority. A look down the long drive, lined by its double row of acacias which leads to the pretty little white church at Burlington, is an invitation to peace and hopeful contemplation. These wanderings are not meant to reflect upon ourselves, but to move someone perchance to plant similarly and we shall have no rivals.

Church property in the ideal should be one of the most beautiful possessions in every village or town. I should like to see St. Andrew's, Grimsby, made more inspiringly ideal in all respects than any other parish in the diocese of Niagara.

Services in the Little Parish Church may be described as bright, devout and varied. There are no two Sundays of the month are just alike: the first Sunday having Matins with plain Celebration; the second, an early Celebration, with Matins and state prayers at eleven; the third, a choral Eucharist; fourth an 8 o'clock Celebration, followed by Matins and Litany at mid-day; fifth, children's Eucharist. This difference should give width of appreciation and outlook, and eradicate that narrowness of early upbringing which thinks but one service tolerable—"that to which I have been accustomed."

From visitors, both lay and clerical, are frequently heard expressions of the services' uplifting tone. Every parish, no doubt, has its occasions when certain services may be regarded as specially impressive. St. Andrew's, we hope, not devoid of its goodly portion; the service of intercession for the fallen heroes of the great war was, we think, worthy of a long remembrance.

Roll of Honor:

Voluntary enlistment, in flight off the Tentonic terror of men identified with the congregation, showed a spirit not easily rivalled by any community in Canada. One hundred and thirty names may be seen on the long double column suspended in the tower-porch, a willing offering of freedom, and a conferring of much honor upon their fellow-workers. We are heirs to the dis-

tales for many years.

St. Mary's Guild, under the presidency of Mrs. Drope, has undertaken many difficult projects, entailing considerable financial outlay. Their never-ceasing enterprise cannot be too highly praised. A lasting and proud monument to their courage is the Parish Hall, the finest and most picturesque structure in our village, affording facilities for all demands. Indeed, it is too attractive and commodious, for embarrassment is sometimes caused through the desires of non-parochial organizations to enjoy its alluring accommodation. Steadily the Guild has toiled and met every obligation of interest and principal, till the indebtedness on the building is now reduced to less than \$1,700.

The Women's Auxiliary, of more recent creation than the Guild, yet claiming ancient service, was in early years fostered by Mrs. Adolphus Pettit. It has a very worthy and strong record of service rendered, evidencing its faith and purpose. Goodly garments despatched to isolated northern fields, and money sent to far-away lands, cause unknown people to feel through practical touch that sacrifice and thought of others, which is the very essence of Christianity. Miss Metcalf and Miss Woolverton hold office on the Diocesan and Dominion Boards of this far-reaching organization.

One would fain speak of other activities and persons, all lending val-

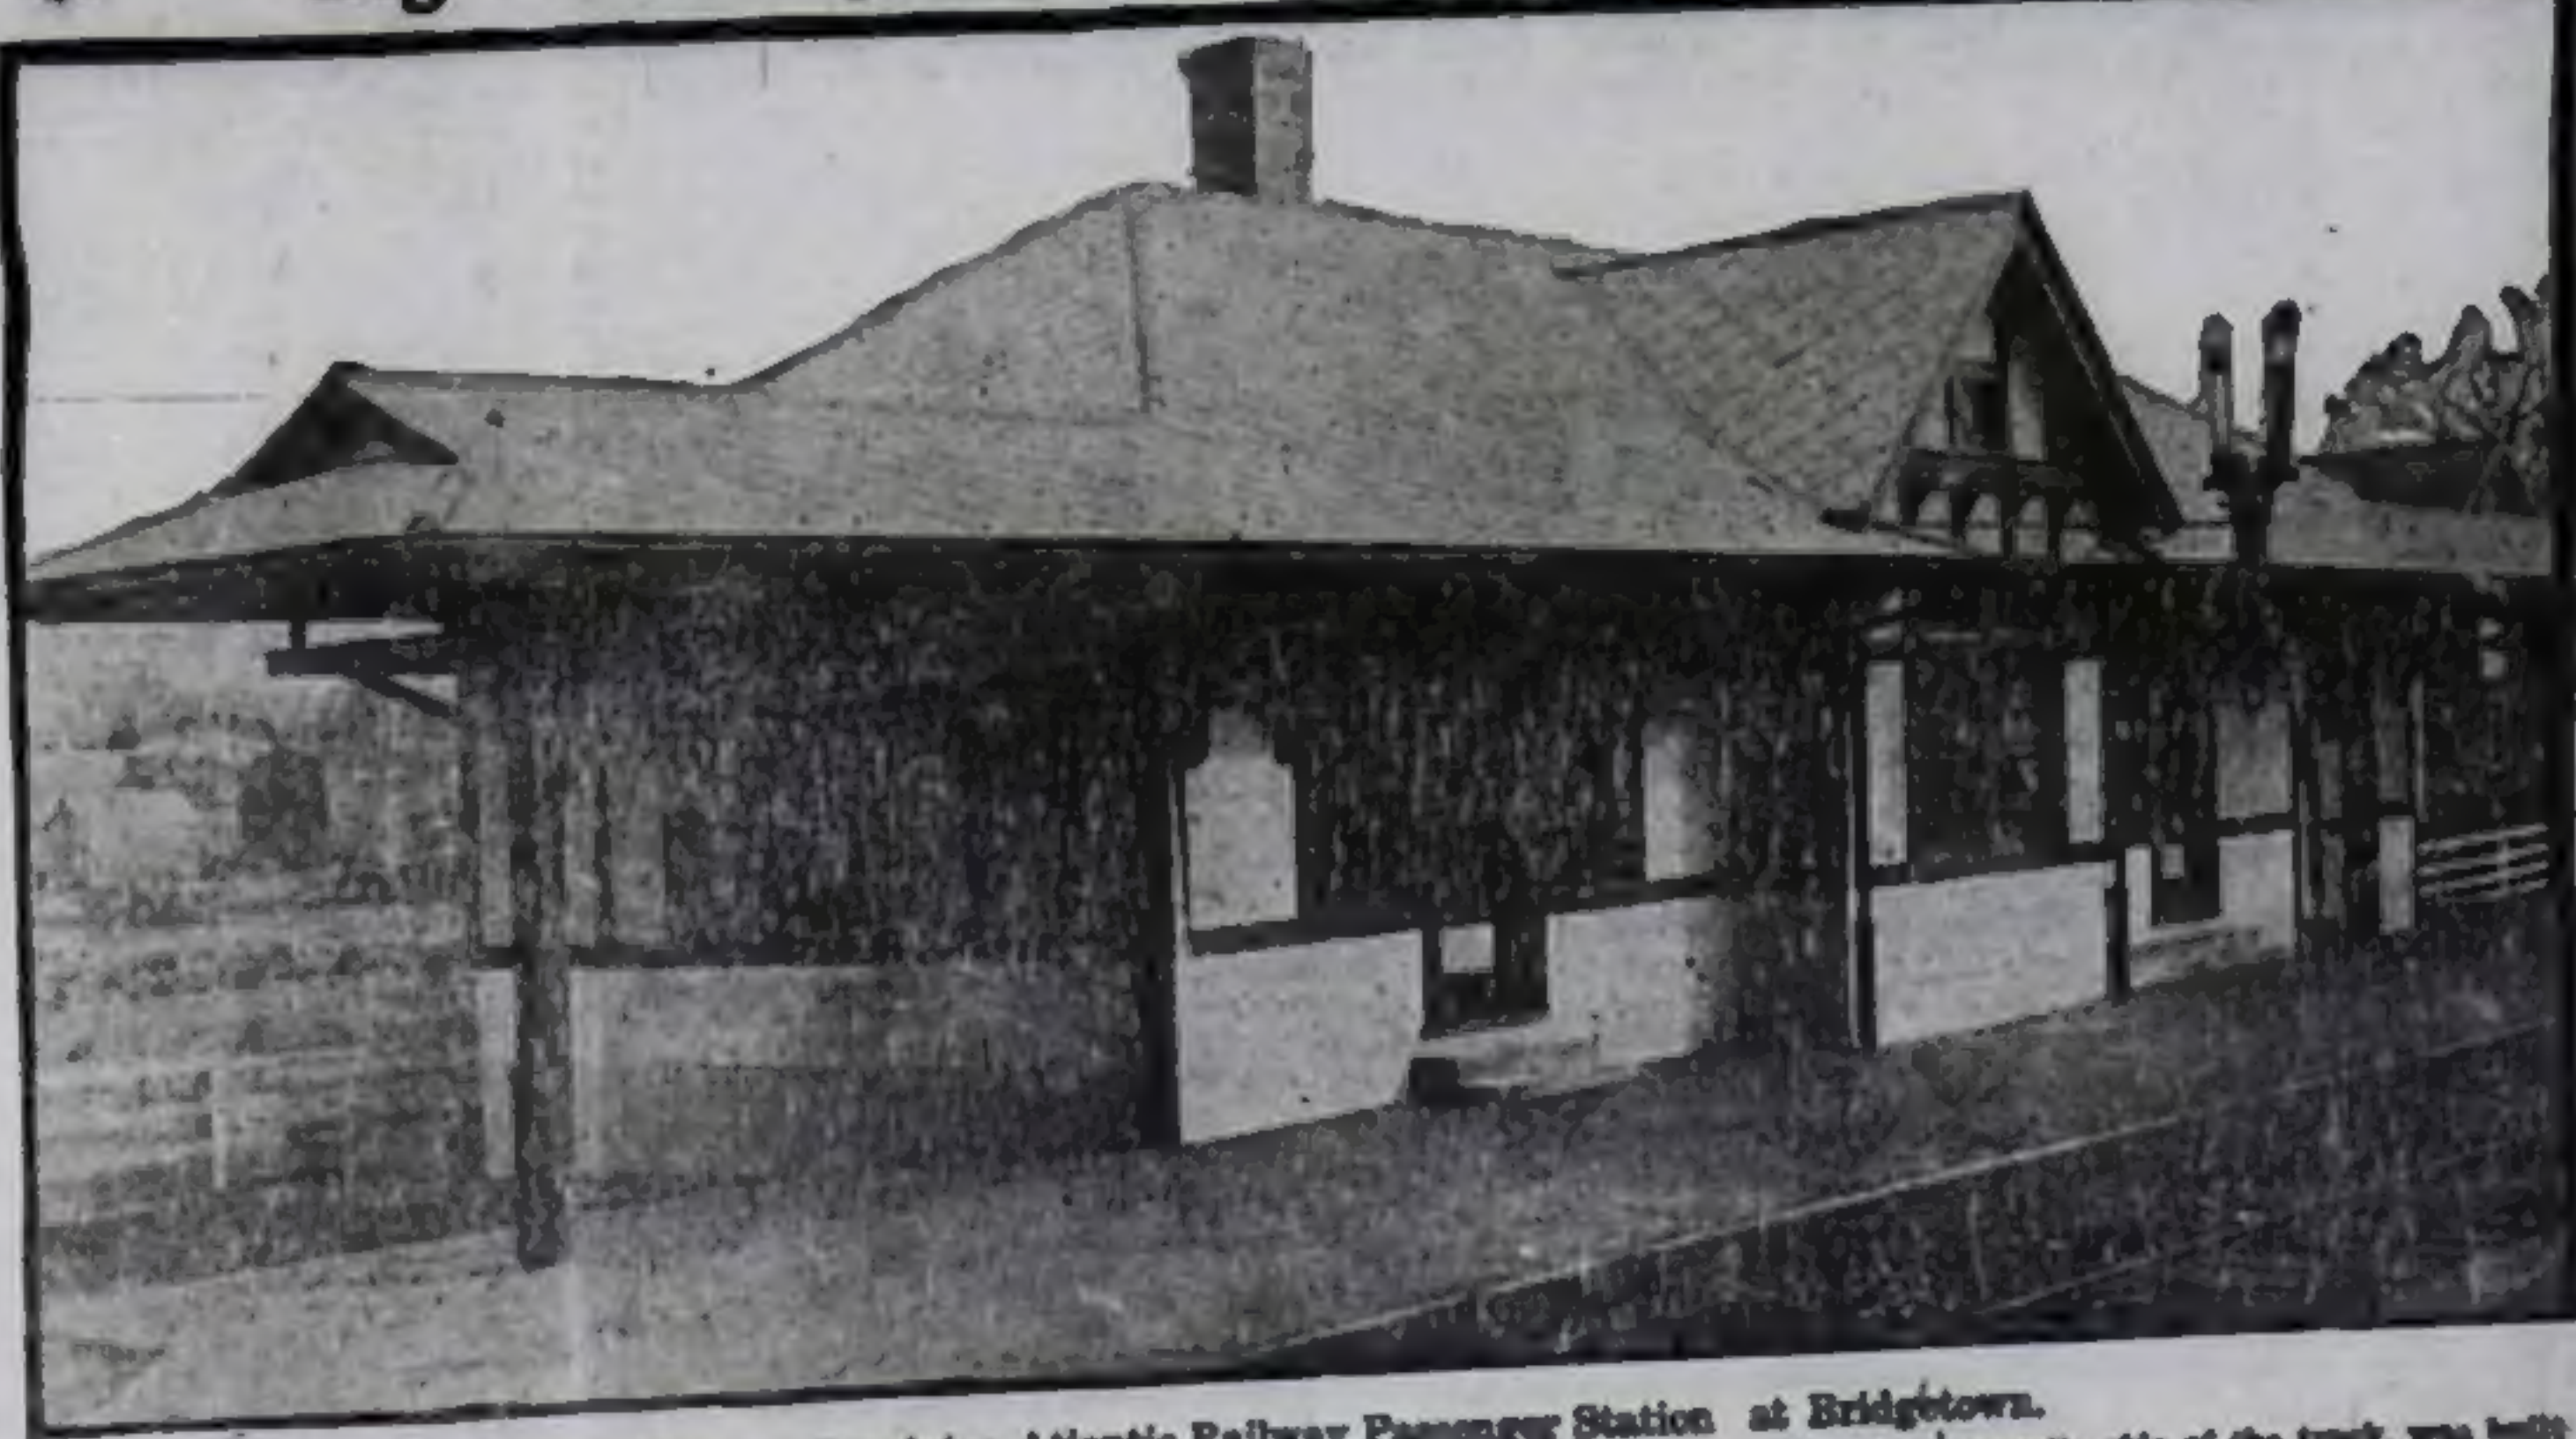

by Mr. Kenneth Groat, the congregation spontaneously rose in generous effort to adorn their much beloved House-of-God by beautifying it with a very handsome oak-paneled ceiling.

So costly an enterprise would at any other time have been regarded as quite beyond attainment. But sentiment can open purses and begot activity. In an astonishingly short time money seemed on the way for this commendable restoration, brightened by the liberal bequests of Mr. George F. Little and Miss Alice Groat. Mr. Parsons has been the active and guiding spirit in this heavy undertaking; and assisted by his co-warden, Mr. Pottinger, and a good finance committee, the prospects of a glad fulfillment seem hope fully on the way. We trust its consummation may be a matter of gratification to many worshippers in the generations to come.

Font:

The font has manifestly been overlooked by Mr. Woolverton in his chronicle of interior equipment. This rotund reminder of life renewed Dr. Lundy had sent out to him from England, a seeming labor of sentiment with a mountain of stone so near. The journey must have given it a taste for travel, as we read of its moving up and down the church at intervals according to the doctrinal disposition of the day. It was first placed at the door of entrance but

Big Developments in Evangeline's Land

The new Dominion Atlantic Railway Passenger Station at Bridgetown.

Not only is the Canadian Pacific Railway making advances in accordance with the necessities of the times, and providing every modern improvement for the convenience and comfort of the public, but all its subsidiary lines are similarly progressive. The Dominion Atlantic Railway, which serves a large portion of Nova Scotia and runs through the beautiful Land of Evangeline, now owns and operates The Pines Hotel at Digby, providing first class accommodation for the large numbers of tourists who visit the district. A new night service has recently been inaugurated. This night service leaves Yarmouth on Monday, Wednesday and Saturday evenings, and Halifax on Sunday, Tuesday, and Friday, and marks one of the most important developments since the through line of railway from Yarmouth to Halifax was opened for traffic in 1911. These trains carrying on a combined freight and pas-

senger service, but only carloads of through merchandise are carried. When on a trip of inspection over the Dominion Atlantic Railway, at the end of November last, Mr. Orant Hall, vice-president of the C. P. R., expressed the desire to have the D.A.R. equipped in the near future with steel rails much heavier than those at present laid. He said that this work would probably be undertaken when the effects of war conditions had disappeared. Important improvements are being carried out along the line and arrangements are progressing for the erection of a new station at Digby which will provide the most up-to-date facilities for tourists and other traffic and will considerably to the beauty of the town. It is estimated that during 1919, 60,000 tourists visited Nova Scotia and spent there about \$1,000,000. Recently a new station was opened at Bridgetown, which is the satisfaction of the public that it is a handsome building

34 ft. x 54 ft. with 20 ft. overhanging on each end and has in front a lawn walk 130 feet long and 12 feet wide. The building is very conveniently located. It has a cement base, painted finish, with smooth finish above and below. The roof is asbestos. The inside consists of grand room, 30 ft. x 24 ft., office 14 ft. x 14 ft., ladies' waiting room, 12 ft. x 14 ft., and baggage room 24 ft. x 12 ft. The inside finish is of Douglas fir and birch, finished in the natural wood. The ceilings and side walls are and finish tinted in cream. There are also up-to-date conveniences and the heating plant consists of a Cumberland hot air furnace manufactured and installed by Mr. G. E. Banks, of Bridgetown, who also executed the plumbing. The inside and outside decorating was in charge of Mr. Harry Denison. The whole work, including the building of a walk, bracket and 30 ft. x 45 ft. on the

opposite side of the track, was built by contract by J. H. Hicks & Sons, under the personal supervision of Mr. H. A. Hicks, of that firm, who has already built seven Dominion Atlantic Railway stations. The Dominion Atlantic Ry. has also added to its system the hotel at Kentville now known as the "Aberdeen." Kentville is an important and growing centre, and the fact that it is now to have modern hotel accommodation will add tremendously to its benefit. The "Aberdeen" is especially attractive, and will be made very attractive. It will be renovated and refurbished from ceiling to roof. Many of the rooms will be equipped with private baths. The work of renovation will begin at once, but renovation will be completed and the hotel will be opened the year-around, and cater to the general and commercial interests as well as to the tourist trade.

Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles. Peps contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

FREE TRIAL Cut out this across the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

Letters To The Editor

IS THIS PROFITEERING?

Editor, Independent:—
Sir—I have been going to write you several times about "Profiteering in Grimsby." I have run across several instances in the last few months where grocers and even the coal dealers have been robbing the public. The last instance occurred on Monday last. I sent to one of our leading grocers for a tin of Diamond Crystal Syrup. I was not surprised to hear it had gone up—which is quite the usual thing every week—but in this case the price jumped about 25 per cent. on the stock this grocer had already in his store. The usual price for this brand of Syrup has been 40 cents per tin. The new price at this particular store is 55 cents per tin.
When I arrived home I opened my parcel and found the tin of Diamond Crystal Syrup marked plainly 40 cents. To be sure the grocer had not made a mistake, I went into his store on Tuesday and asked the price of Diamond Crystal Syrup, this was the reply from the clerk: "55 cents per tin, but we are sorry we have none in, just now, they will be in in a few days."

Now Mr. Editor, this is stealing, and if I stole 15 cents from that grocer he would probably have me landed in jail. Can you inform what action I can take to have this grocer prosecuted? Thanking you for the space and trusting you will be able to answer my question.—POOH PUBLIC.

ANSWER—The only way that this customer could bring any case against the grocer would be through the Board of Commerce. It was not stealing in the true sense of the word, as the customer gave the price the grocer asked for the goods—it was simply profiteering, or extortion. The customer does not say what he found the coal dealers guilty of. We did not think coal dealers would ever be guilty of any wrong except that they might refuse to supply us with coal on credit.—The Editor.

THE U.F.O. MEETING.

Grimsby, Feb. 10th, 1930

The Editor, Independent:—

Sir—The Grimsby Branch of the U.F.O. inserted and paid for an advertisement of meeting in your issue of 4th inst., the heading of said advertisement as handed in was "Fruit Growers" but it appeared with the word "Shun!" added without the knowledge or consent of the advertiser. Of course all those with a military training were aware that this was a contraction for "Attention." You will agree with me that the word "Shun!" might convey a different meaning to the civilian, so I hope you will accept this correction in the spirit in which it is given.

Further under "Facts and Figures," in the same issue, you refer to Mr. Halbert as President of the U.F.O. Now Mr. Halbert is not President of the U.F.O., but a member of the Federal House for North Ontario and his views on the tariff question are not acceptable to the large majority of U.F.O. Fruit Growers.
In reference to your hostile criticisms of the Hon F. C. Biegs, under the same heading, surely they are not in the interests of the Farmers of the County of Lincoln, as it is generally admitted that his Provincial Good Roads Policy is more progressive and better calculated to benefit the County as a whole than any other so far devised.

Yours faithfully,
Hamilton Fleming,
Chairman Grimsby Branch U.F.O.

IMPROVEMENTS AT GRIMSBY BEACH

A visit was paid to GRIMSBY Beach last week by some of the officials and Percy Finkle, dance hall manager extraordinary. Before they left it was definitely announced that the dance hall would be enlarged before the coming season opens and a new and wider verandah built on it. It is intended to increase the dancing space of the hall by at least a half.

Several new boat houses, bath houses and lockers were ordered built at the lake front for Tommy Wilcox and Tommy was instructed to purchase a lot of new boats, bathing suits, etc.

Several swings for the picnic grounds have been built during the winter and other slight improvements made.

Obituary

JACOB ALBRIGHT DEAD.

The death occurred in Hamilton on Thursday evening of Jacob Albright of the firm of Albright and Dods-worth, undertakers.

He was born near Beamsville, in the township of Clinton, on April 14, 1866, and started in the undertaking business with W. R. Pray Hamilton, twenty-seven years ago. With the exception of the short time he spent in Toronto, in the employ of Alex. Millard, he had always resided in Hamilton. Returning from Toronto, he entered the employ of Blackford & Son, with which firm he was identified for twenty years. When after the death of the head of that firm, the business changed hands, Mr. Albright engaged in business with A. J. Dods-worth, becoming a member of his firm under the name of Dods-worth and Albright. He had been with Mr. Dods-worth for about five years, and his death has caused sincere sorrow among his associates in this business.

DEATH OF ROBERT KIDD.

The death occurred in Toronto on Friday of Robert Kidd, formerly of GRIMSBY for some years until last the dreaded "Flu."

Deceased gentleman had lived in GRIMSBY for some years until last fall, being employed in the moulding shop of the Metal Craft Co.

He was staying with his brother in Toronto when taken ill. He leaves a wife and small family to mourn his loss.

DEATH OF JOHN KIDD

Word was received in GRIMSBY on Tuesday night of the death in Wapella, Sask., on Tuesday of Mr. John Kidd, brother of Capt. W. W. Kidd of GRIMSBY. No particulars were given.

Mr. George Kidd who had been visiting with his brother here for the past few weeks received a telegram on Sunday that John was ill and immediately left for the West, but would not have reached Wapella before eleven o'clock last night and consequently was not there at the time of death.

BEREAVEMENT

Mr. and Mrs. David Fleming wish to thank their many friends and kind neighbors for their sympathy and beautiful floral tributes in their sad bereavement.

IN MEMORIAM

In loving memory of John Cope, who died February 6th, 1913.

Seven years have gone dear son,
Your troubles are o'er,
Your smile will gladden my heart no more.
On earth there's sorrow, in Heaven there's rest.
They miss you most who loved you best.
—Father.

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by
Taking "FRUIT-A-LIVES"

MRS. M. J. GORSE

3229 Union St., Vancouver, B.C.
"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused.

Then, I started taking 'Fruit-a-lives'; and from the outset, I felt better; and this medicine has completely relieved me of all my misery and suffering. My weight was only 145 pounds and now it is 165 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-lives'."

MRS. M. J. GORSE.

Box a box, 5 for \$2.00, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

District Summary

News of the District Culled From Our Exchanges

St. Catharines Public Schools cost \$53,630 to run last year.

Niagara District Orangemen will celebrate the 12th of July in Dunnville.

A. E. Foster has been appointed city clerk of Welland at a salary of \$1500 a year. He is a returned man.

Premier Drury announced last week that the Ontario House will open on March 29th.

It cost Welland city \$12,841 to run its Police Department in 1915. Fines collected \$12,845.

The Niagara Falls street railway franchise expires in two months. The Hydro has had an engineer looking over the road. The council appears tired of delay, and favors the taking over the road by the city at the expiration of the franchise.

The marriage was solemnized Wednesday afternoon in St. Paul's Presbyterian Church, Hamilton, of Miss E. Louise Foster of Smithville, to G. Leslie Bell, M.D., of Blenheim. Dr. and Mrs. Bell will reside in Blenheim.

Ottawa, Feb. 4.—Canada's population is estimated by the census branch of the trade and commerce department at 8,835,102. The census branch has based its estimate for the year 1919 on the known increase in population, as shown by the census of 1901 and 1911. Such calculations have in the past proved to be approximately correct.

Bridgeburg, Feb. 2.—Bridgeburg is to have a co-operative store backed by the Trades and Labor Council, according to a decision just reached by the various crafts here composing the Council. J. Keene of Brantford has just been here interviewing the local Trades and Labor Executive in regard to the project and it is said that sufficient money will be available for the committee to allow the early starting of a co-operative store.

The South Grimsby Council met in special session last week to again consider the feature of the suit, now pending at Osgoode Hall, re the County of Lincoln vs. South Grimsby. The solicitor in charge of the case W. M. McInerney of Hamilton, was present and went into the matter carefully with the local Council. The matter was allowed to stand as at present.

St. Catharines, Feb. 6.—The village of Port Dalhousie is making a move to get a waterworks system, and it is likely the supply will come from St. Catharines. When the big pipe line from Lake Erie to Lake Ontario is finished, work in which it is to be commenced this spring, all places along the Welland canal will get their supply from Lake Erie. The digging of the new Welland ship canal is destroying their source of supply and the government is building the pipe line, which will cost several million dollars.

Bridgeburg, Feb. 2.—Fire early Sunday, which was due to a defective chimney, completely destroyed the residence of William Grant, near Gilmore street. Mrs. Grant, an 81-year-old woman, was in the house at the time of the fire, and she was rescued by neighbors. The fire had gained considerable headway before it was discovered. The firemen were greatly hampered owing to frozen hydrants. The loss is about \$3,000. The amount of insurance is not known. With the thermometer around ten degrees below zero, the work of fighting the fire was very difficult, but it was confined, however, to one house.

Thorold, Feb. 2.—At 2 p.m. on Saturday fire totally destroyed the Henderson building on Ormond St., occupied as a poolroom, barber shop and restaurant downstairs and a rooming house upstairs. The Osborne block, only a few feet away was saved. The firemen's clothes were covered with ice and the temperature was below zero. The total loss is about \$10,000, including Victory Bonds and money lost by the roomers who were foreigners. An overheated stovepipe is thought to have started the blaze.

The wave of child crime has struck Thorold and the authorities are wondering where it will end. Archie McKoske went to his news store Monday afternoon and upon opening the door heard a scrambling inside. He was surprised but asked if there was any person in the building and upon receiving no reply made a search and was surprised to find two young lads hiding under a stairway. The two lads were handed over to chief of police Perry. At the Police station it was learned that the burglars had reached the immature age of 9 and 14 years respectively and are of foreign parentage. At first they denied having entered the store, saying that some other boys had done this but upon further enquiry it was learned that they had planned the entry. First they went to Barton's garage and secured the screw driver with which they removed the back door. After gaining entrance the cash register was robbed of some coppers and a small amount of silver which had been left in the till Saturday night. Several small toys were also taken. One of the boys had taken the coppers to a store and had them changed into all-

ver. This is not the only store that has been entered recently and it is understood the social service council are assisting the authorities to see what can be done in the matter.

According to the report of John A. Talbot, chief constable of the township of Crowland, violations of the Ontario temperance act by residents of that township totalled a large amount during the fiscal year just ended. According to his statement, the total amount of fines collected during the year for violations of the Ontario temperance act, mostly for smuggling totalled \$12,507.05. The total number of cases during the year in Crowland was 535, of which violations of the Ontario temper-

ance act constituted 154, gambling 25, theft 49, assault 53, opium 22, etc.

St. Catharines, Feb. 5.—W. E. Emmett having complained that a relative of his, a high school girl named Alma McDonald, had caught the smallpox because she had been asked by the science master at school to leaf over books of another pupil who had taken the disease, while he fumigated them, the board of health at its meeting to-night decided to ask for an investigation. Principal A. E. Coombs stated to-night that as he understood it the teacher had simply fumigated the girl's books himself instead of waiting for the caretaker in order to save time. The McDonald girl happened to be in the room, and he may have asked her to hold the books for him. The McDonald girl's mother is a widow and a dressmaker. The house was quarantined and her source of revenue cut off. She sent in a bill for \$23 against the board of health, which was ordered paid without question, as the board having closed up the house, was responsible for the expenses in such cases.

Beamsville Express—About fifty guests from Hamilton, Toronto, GRIMSBY, Beamsville and surrounding country, extended congratulations and good wishes to Mr. and Mrs. Edward Keith last Friday, Jan. 30th, on their completion of twenty-five years of happy married life. The home was beautifully decorated with pink carnations and white narcissus, and a buffet luncheon was served. Many and costly gifts testified to the esteem in which the couple were held. A delightful time was spent by all in helping Mr. and Mrs. Keith to live over again that happy day of twenty-five years ago.

Bridgeburg, Feb. 6.—U. S. Collector of Customs Davidson, across the border, today declared that if it is found that any whiskey is being illegally brought into the United States he will cancel the usual courtesy of not inspecting dining cars and other employees' quarters on passenger trains across the line from here. Collector Davidson has a number of inspectors engaged in special service here, but there are no special inspectors for this purpose. He declares, however, that more men will be asked for if any instances are found of whiskey smuggling. Several seizures have been made by the U. S. customs on trains crossing here, but only one in which employees of the railway were implicated, and that consisted of eighteen quarts found in Pullman quarters. A story in circulation is that plainclothesmen will be placed on service shortly, watching the border, most of them being formerly members of the Boston police force, discharged owing to the big strike there.

Welland, Feb. 2.—At the closing session of the County Council here it was decided that the council co-operate with a deputation from Port Erie to interview the Dominion Government relative to the erection of a Peace Memorial Bridge at or near Port Erie and get the Government to work in conjunction with the Commission from the United States Congress. Deputy Reeve W. L. Horton of Pelham has also urged a Jail Farm for the county. He claimed that jail confinement made criminals instead of curing them, and that for the general health and from a moral standpoint and also as a better corrective method, Welland should have a Jail Farm. It was decided after the motion carried unanimously, that the council consider the advisability of joining with Lincoln county in the establishment of the same, and that the suggestion be laid before the Dominion Government to send an official to the Welland Council. The question of a War Memorial Hall was turned down flat by the members, who opposed the scheme because the hall was to be erected in Welland. A grant of \$50,000 was asked for the purpose and the opinion was expressed that if the grant was favored it should be divided equally among the municipalities represented in the council and that the members were utterly opposed to centralizing.

On Saturday, January 21, the home of Mr. and Mrs. John Guyatt, Blenheim, was the scene of a very happy gathering, when, with about one hundred guests they celebrated the fiftieth anniversary of their wedding day. The unusual severity of the weather outside but served to emphasize the cheer within. Shortly after 2 o'clock the company sat down to an appetizing luncheon served in the basement, at three long tables, prettily decorated with yellow daffodils and yellow candles. A number of witty and clever speeches contributed to the enjoyment of the repast. All joined in eulogizing the character and life's work of the aged couple who have always lent their support to every cause which tended to the uplifting of the moral and religious tone of the community, not confining themselves to any one church, but broad-mindedly being active workers in each. Just before rising from the table, Major L. L. Guyatt, of Toronto, on behalf of the members of the family, presented their father and mother with a tray full of gold coins, saying that these coins were a symbol of the way the family regarded their parents—as being of pure gold. Other costly and beautiful gifts were received, among them being a pearl and diamond sunburst and handsome clock to Mrs. Guyatt, and a gold watch for Mr. Guyatt from the members of the Blenheim Baptist church. The evening was spent in music and games, the guests being loathe to leave, as such a celebration occurred but rarely in any community. No one enjoyed the day's social intercourse more than Mr. and Mrs. Guyatt themselves, both assuring that such evidences of true friendship were a reward for past endeavors and an inspiration for future efforts.

EMMY WEHLEN ALSO A BRILLIANT DANCER

From her musical comedy and operetta experience, Emmy Wehlen the scintillating young star of the Metro playhouse, "The Belle of the Season," which will be seen at Moore's Theatre on Saturday night, Feb. 14th, is acknowledged one of the foremost exponents of the terpsichorean art. Even since she has become a Metro screen star, Miss Wehlen insists on setting aside sufficient time to enable her to keep in touch with all modern steps, as well as continuing her practice in ballet and eccentric dancing, which she declares, is one of her chief diversions from the strain of studio work. In "The Belle of the Season" Miss Wehlen has the delightful part of a gorgeously gownned young heiress, which is the most becoming role she has had for some time.

DOCTOR URGED AN OPERATION

Instead I took Lydia E. Pinkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Pinkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me and my work is a pleasure. I tell all my friends who have any trouble of this kind what Lydia E. Pinkham's Vegetable Compound has done for me."—NELLIE E. BARTHOLOMEW, 609 Calverton Rd., Baltimore, Md.

It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this famous remedy, Lydia E. Pinkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

From Cherry-Blossom Land

The Japanese Give Good Example

It is a story of a woman who has been in the land of the cherry blossoms for many years. She has seen the beauty of the land and the people. She has learned the art of the geisha and the art of the tea ceremony. She has seen the beauty of the cherry blossoms and the beauty of the Japanese people. She has seen the beauty of the land and the beauty of the people. She has seen the beauty of the cherry blossoms and the beauty of the Japanese people. She has seen the beauty of the land and the beauty of the people. She has seen the beauty of the cherry blossoms and the beauty of the Japanese people.

ONTARIO WOMEN TESTIFY

Chatham, Ont.—"Dr. Pierce's medicine has been used in my family at home (especially by my father and mother) ever since I can remember. They always proved very satisfactory. Through overwork I at one time became all run-down in health, was on the verge of a complete nervous breakdown. I went on acting for about two years, during which time I suffered terribly. I took Dr. Pierce's Favorite Prescription and it soon built me up in good health and cured me of the nervous condition. I consider it an excellent medicine for the ailments of women."—MISS CHAS. TROTT, Jr., 28 Duke St.

MAINLY FOR WOMEN

CARPENTRY FOR WOMEN

There is no reason for the oft-repeated assertion that women cannot drive a nail straight. They can if they are taught to.

The neighborhood tomboy, the only girl on the street who can "throw like a feller" either learned from close observation or at the hands of some boy sweetheart who betrayed his sex for her sake.

At school little girls in the manual training classes are as deft at whittling as the lads; brother whacked the whole end of one finger, while sister only cut a slice from her knuckle twice.

In later life she learned to crochet beautiful afghans for the babies and splendid socks for the wounded French but she never took the pride in the mature feminine accomplishments that she did in the rickety little footstool mother always kept in the den.

A king regards his crown with no more assumption of its masculine prerogatives and personal perquisites than the average man does the hammer.

In the mind's eye of the ordinary husband a hammer grows, not on the end of a handle but on the back of his hip pocket. Nor will you, without adequate demonstrations, be able to make him think otherwise.

One can think of no occupation which has come down more strongly earmarked by sex prerogative than carpentering. For a young wife to tighten a loose screw on the ice chest with a silver butter knife is a natural proceeding, but for her to remove the old screw with one of her husband's carpentering tools, select a larger screw in order to more than fill the old hole, and finishing off the job with merely nominal mechanical skill, is positively forward in her.

Even down on the farm, where a woman does so much that is mainly labor, she would never feel called upon, while passing between the baking of tea pies indoors and the sowing of an acre lot in garden "moss", to knock together so much as a rickety hencoop for herself.

The men would do that when they came in. For her to use hammer and nails would be, to her way of thinking, a betrayal of her sex and to her husband's, an infringing on his.

And yet, as many a rural home knows no one is better fitted to do "odd jobs" around the house, armed with hammer and saw, than just such a woman, for she is the one to whom, after long practice with implements not erected as monuments to the theory of labor saving, the schemes for helpful devices would come.

CEREALS AMONG MOST IMPORTANT

Cereals and the products made from grains are among the most important of vegetable foods.

Their use is universal all over the world and one reason for this is that they contain in varying proportions all the kinds of food-stuffs necessary to support life. On account of the high percentage of starch, cereals are especially valuable as fuel food.

Wheat, corn, rice and oats are the most widely used; oats and cornmeal having more fat than other cereals are particularly desirable for winter foods, although experience has proven that oatmeal mush is acceptable for active children all the year round.

Cornmeal and oats are valuable in the diet when the menu lacks meat. Whole or coarse grains are improved and require less time for cooking by soaking in cold water; very fine grains may be mixed with cold water before adding to the boiling water to prevent the formation of lumps. All others should be added slowly to the boiling water. Add one teaspoon of salt to each quart of water used.

The rolled grains require two cups of water to each cup of cereal; ordinary oatmeal, granulated wheat, cornmeal and rice require four cups of water to each cup of cereal; hominy and cracked wheat require five cups of water to each cup of cereal.

The first of the cooking should be rapid and the upper part of the double boiler should be placed directly on the stove and the cereal added and cooked five minutes. Then put the boiler over the hot water, cover and cook the required length of time without stirring. Cereals are not injured if cooked for a longer period than the directions call for.

For Gruel

It is most important that the cooking of the cereal be long enough to change the starch to a nearly soluble condition, otherwise it will be indigestible. A good rule is to cook them until the cereal forms a jelly-like mass. It is desirable to offer a variety of cereals. The family may easily tire of one variety served too often. Most cooked cereals may be moulded, sliced and fried, and may be served with either syrup or eaten with meats. A portion of cooked cereal may replace an equal amount of flour in making muffins or griddle cakes.

Care of Cereals

Dates, raisins, prunes, dried apples, apricots and figs, chopped and lightly stirred into the cereal just before serving, makes a pleasing variety. Cream is the logical accompaniment to the breakfast cereal since it supplies the fat in which many are the grains deficient.

POULTICE FOR PNEUMONIA

Here is another household prescription embodying the remedial action—it can do no harm, even though it may not be the sovereign remedy the correspondent believes it will prove.

During the months when we find pneumonia prevalent one may offer a helping hand, when medicinal power has been exhausted. I am asking that you make use of this recipe in your valuable column. It is for a most excellent poultice which has been the life-saver in many cases. Take six onions, chop fine, put into a large spider over a hot fire; add vinegar and rye meal enough to form a thick paste. Stir it thoroughly, letting it simmer from five to ten minutes. Put into cotton bag large enough to cover the lungs and apply to the chest as hot as the patient can bear. In about ten minutes change the poultice, and thus continue reheating the poultice. In a few hours the patient will be out of danger.

This simple remedy has never failed to cure this too often fatal malady. Usually two or three applications will be sufficient, but continue always until perspiration starts freely from the chest. This remedy was formulated many years ago by one of the best physicians New England has ever known. He never lost a patient by the disease and won his renown by simple remedies. It is also an excellent croup remedy when applied to the throat.

TURKEY AND FOWL FEATHERS FOR CUSHIONS

Chicken and turkey feathers should be put in stout brown paper bags and baked in a cool oven. If too hot the paper would char.

Dissolve 2 lbs. of alum, 2 lbs. of cream of tartar, and 1 lb. of washing soda in 12 gallons of cold water. Place feathers in this and leave them for three days. Then wash them in clean water. Make a bath of 3 oz. of chloride of lime mixed in cold water. Place the feathers in this for six hours, then rinse in clean water and dry on a wire grid or tray, or trays of jute, hessian, or anything that will allow the air to circulate freely all around the feathers. The above amounts will do a large quantity of feathers. Less can be used in proportion for small quantities.

SOME HINTS

Add pinch of borax to starch. Keeps it from sticking on iron.

Keep piece of stale bread in cake box. Will keep cake moist.

Dirty towels may be restored to whiteness by putting in a kettle of cold water with shavings of soap and lemon juice. Let come slowly to a boil. Rinse well, blue and hang in the sun.

IMPROVEMENTS IN SCHOOLS

(Continued from Page One.)

time. This means that 41 per cent. of the pupils were absent all the time, or that all the pupils were absent 42 per cent. of the time. This condition can be remedied only by (1) an efficient teacher, (2) more interest in education by parents and (3) an efficient attendance officer. A Provincial Attendance Officer has been appointed to superintend the work of the local attendance officers, and to take measures to improve the attendance of pupils. Comparing the attendance this year with that of last year, I find that the daily attendance is 6 per cent. of the total enrollment higher in the rural schools than last year and 15 per cent. higher in the urban schools. This is a fairly satisfactory increase and is due to more efficient work of the Trust Officers, and to the effective work of the County Trust Officer.

Mental Defectives and Backward Children

In my visits to the schools during the past year I have found a number of children attending school who are mentally defective, or very backward in their classes. These children are not only a great problem for teachers, but they are not capable of profiting by the ordinary school education. There should be a special school for such classes where they could be taught by specialists in that kind of work, and where the course of studies would develop whatever latent powers they may have. This is one phase of our educational system that will require attention in the future, if we are to raise the standard of our citizenship to the highest level. The problem is receiving the attention of the Education Department and it is hoped that some solution will be found.

Agriculture in the Schools

The number of schools teaching agriculture is now 23. Last year it was 18. This work can be made very beneficial to a school and to a section, but results are not satisfactory in some schools for two reasons. First the teacher has not a sufficient knowledge of the subject, or is not practical enough to make it a success. Second there is opposition to the work on the part of parents or trustees, who perhaps have not given the matter sufficient thought. Our education in the past has been too much confined to books, and has not given enough scope to the activities and interests of the pupils. The whole tendency of the present time is toward the practical, and for that reason as well as for many other reasons agriculture should be taught in every rural school.

School Fairs

There were five school fairs held in this County in 1929 as follows: Niagara Township at Queenston, Grimsby Township at No. 2 School, Louth Township at No. 3 School, Vineland Township at Vineland, Gainsboro Township at Mismark. These fairs were all very successful, and have been the means of arousing interest in schools, besides being a great benefit to the pupils. It is proposed to establish two more fairs in 1930: one in Caistor and one in Clinton. It is also proposed to move the Vineland Fair to the Thirty School, or to GRIMSBY PARK, and include in it the schools below the mountain and along the edge of the mountain.

Change in Inspectorate and Number of Teachers

In January, 1929, the Inspectorate in this Peninsula were readjusted and this Inspectorate now includes Lincoln County only. This change has been very satisfactory as it makes it necessary for the Inspector to make reports for one County only. The number of teachers in the Inspectorate before the change was 125. After the change there were 167 teachers, but during the year 8 teachers have been added in the various schools and there are now 175. There are likely to be several more teachers added this year.

Promotion Examinations

In June the promotion examinations were held for the first time, and the results have been highly satisfactory. While it is not intended that teachers will be aided entirely by the results of these examinations in making promotions, it is much easier for teachers to keep their classes at the proper standard, and it also gives the pupils an incentive to do better work.

High School Entrance Examinations

At Niagara 18 wrote, 15 passed, 1 with honors.

At St. David's—23 wrote, 12 passed, 6 with honors.

At Merrilton—11 wrote, 9 passed, 6 with honors.

At Port Dalhousie—48 wrote, 23 passed, 2 with honors.

At Vineland—33 wrote, 20 passed, 5 with honors.

At Grimsby—51 wrote, 29 passed, 4 with honors.

At Smithville—18 wrote, 14 passed, 4 with honors.

At Wellandport—13 wrote, 7 passed, 1 with honors.

At Caistor Centre—19 wrote, 11 passed, 4 with honors.

In all 259 wrote, 171 passed, 20 with honors.

W. W. Ireland Scholarship

This scholarship donated by Mrs. Ireland in memory of the late Inspector Ireland was won by Miss Douglas Acres, a pupil of S. S. No. 3, North Grimsby, Miss Eva Teeter, teacher.

Dr. Fairfield Scholarship

This scholarship donated by Dr. Fairfield of Beamsville was won by Miss Doris Harris, a pupil of Beamsville Public School.

Inspection

During the year I paid a visit of the length required by the Regula-

tions to every school in the county. I also made 25 special visits to schools; attended 9 meetings of Boards of Trustees, 3 meetings of Consolidation of Schools; 3 rate-payers meetings, 1 meeting of Board and Council, 1 opening of new school and 2 school examinations.

New Buildings and Increased Accommodation

The Niagara Board purchased a house and lot adjoining the Public School and fitted up the house as a class-room. The lot adds about 1/4 of an acre to the present school grounds. In GRIMSBY a large house was purchased and altered so as to provide 3 class rooms, cloak rooms, lavatories, with heating and complete equipment. Two teachers were added to the staff.

In Beamsville the Public School building was improved and the premises put in better general condition.

In Merrilton an additional room was fitted up in the Central School, and another teacher added to the staff.

In S. S. No. 1 North Grimsby the upper rooms in the building were finished and a steam heating plant installed. A third teacher was added.

In S. S. No. 7 Grimsby the second room was opened and a steam heating plant installed.

In S. S. No. 6 North Grimsby a new brick building was erected and was ready for occupation at the New Year. This school is an up-to-date building with cloak rooms, teachers room, basement, hot air furnace and lavatories complete.

In S. S. No. 2 Louth a new two-room brick building was erected which is very complete. This is probably as fine a two-roomed school as there is in the Province.

In several other sections, increased accommodation is urgently needed, but the high prices now prevailing, and the unsettled labor situation, and the difficulty of procuring materials make it a very debatable question as to the advisability of undertaking building operations at the present time. However, it is admitted by all, that accommodations must be provided for the increasing school population. There can be no question also that many of our present school buildings and accommodations should be improved. I must say that School Boards are becoming more interested, as a rule, in improved school accommodations, and in a large number of our schools considerable improvements were made during the year.

(Crowded out last week.)

The president announced the successful formation of a Ladies' Auxiliary and stated the Executive of that body was very active and enthusiastic; and desired to be informed of any help they could extend. He impressed on the meeting the importance of the work that could be done by the Ladies; and asked that no

It was announced by the President that the drawing for the Pen used by the Prince of Wales was yet to be—but he was in hopes of having the matter cleared up within a very short time. Lack of attention on the part of those comrades who had tickets to sell, in not turning them in was the cause of the delay.

Mark Twain of Canada

In the days when interesting people came to Canada to find it freshly interesting, there was nobody who could reveal the spirit of the land to them like George Ham of the C.P.R. It is said he put Major Pond of the United States out of business. Why go on a wearisome lecture tour under that impresario's guidance when George Ham could transport you to Winnipeg and on through the delights of the Rockies in all the comfort of a sumptuous coach? Great persons are beseech him to call them by their first names. He has loaned matches to kings and poten-

MR. GEORGE HAM

WANTED

We have a customer who has a nice house and beautiful lot in the Village of GRIMSBY and also has Twenty Acres of fruit land in North GRIMSBY on the Main Road; fully planted. He wishes to exchange one or both of these for a farm in North or South GRIMSBY; and wants to be near a school and a good road.
